PRODUCTION TIME

Our structure and organization allow us to respond to your needs very quickly.

QUALITY/CONTROL

The quality of our services is based on the skill of our technicians, the performance of our equipment, and rigorous testing. We implement a comprehensive quality policy includes an ISO 9001 approach.

MARKING ELEMENTS FOR MOLD

UNIQUE FRENCH MANUFACTURER

● RANGE OF DATE STAMP

- Economical date stamp - Rapid date stamp
- Standard date stamp - Mobile date stamp
- Cylindrical date stamp - Self-contained date stamp
- Micro date stamp

● ELECTRODE RANGE

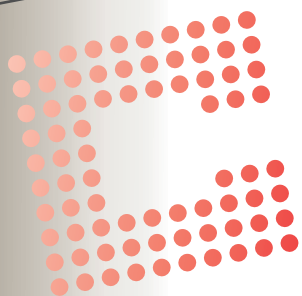

- Electrode recyclability - Food safety - Standardization
- Logo - Brands

● SPECIFIC ENGRAVING

- Engraving type: **BLOW MOULDING - ROTOMOULDING**
- Our CATALOG is available upon request or on the website www.codecor.com

PERMANENT
STOCK

PAD PRINTING

● VOUCHER TO ENGRAVE

- Production of a model in the image of the client

● PRODUCTION OF TYPON (film)

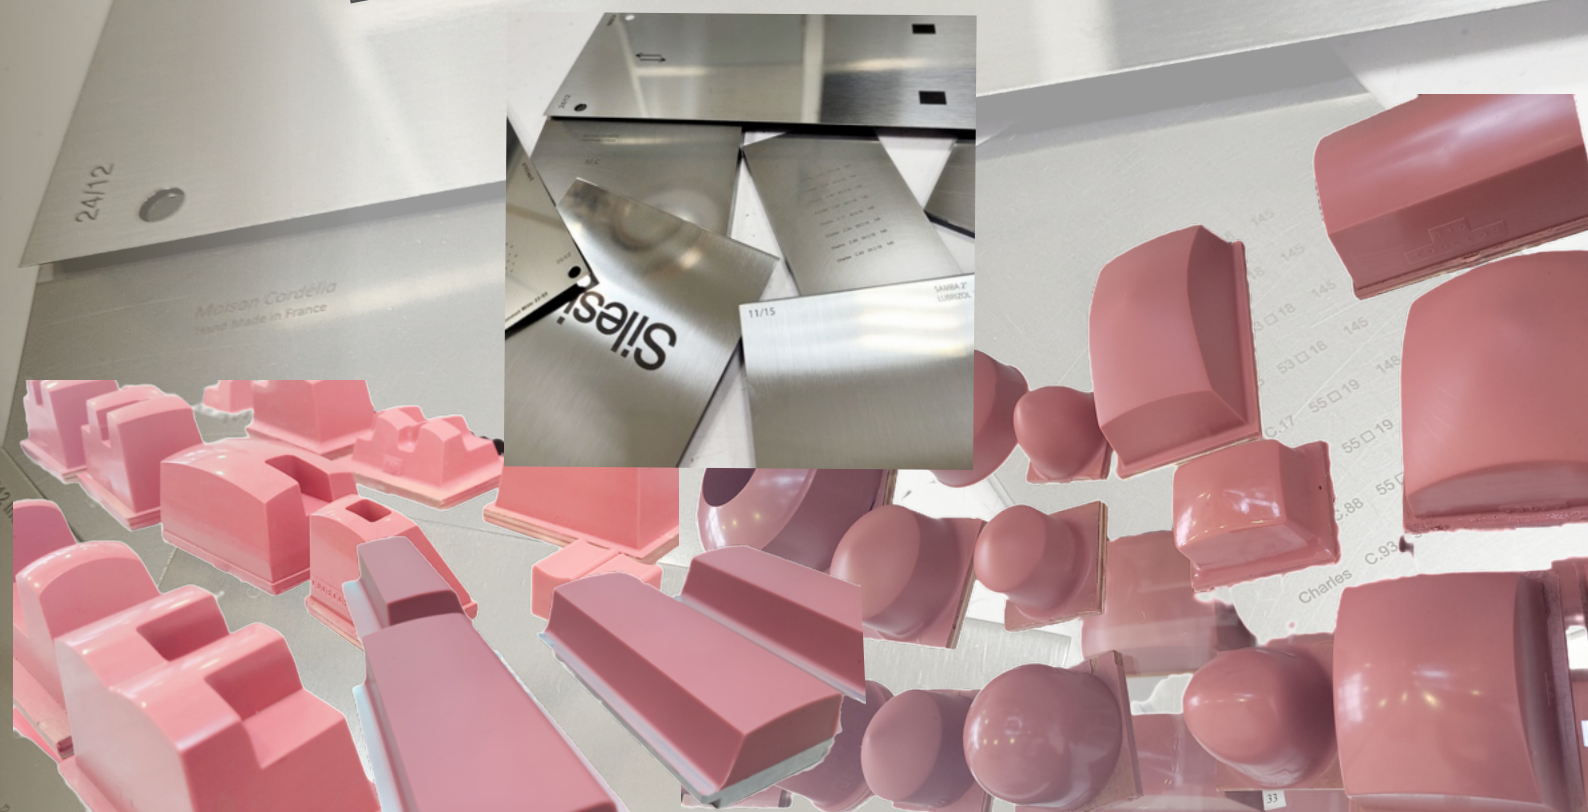

- Cutting-edge computer design studio
- Data processing from all types of media

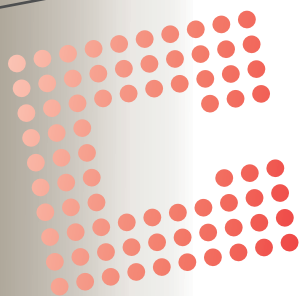

● PAD PRINTING PLATE

- Steel plate, lapped and polished, hardness 64 HRC, thickness 6 to 10 mm
- Eco-laminated or lapped plate, drilled or not, hardness 52 HRC, thickness 0.3 - 0.5 mm
- A team of specialists at your service to provide advice
- Engraving positioning possible to within + or - 0.05 mm of the reference
- Quality control

● SILICONE PAD

- Complete range of standard silicone stamps (catalog available upon request or at www.codecor.com)
- Custom stamps available upon request
- High-quality silicone

SCREEN PRINTING

VOUCHER TO ENGRAVE

- Production of a model in the image of the client

PRODUCTION OF TYPON (film)

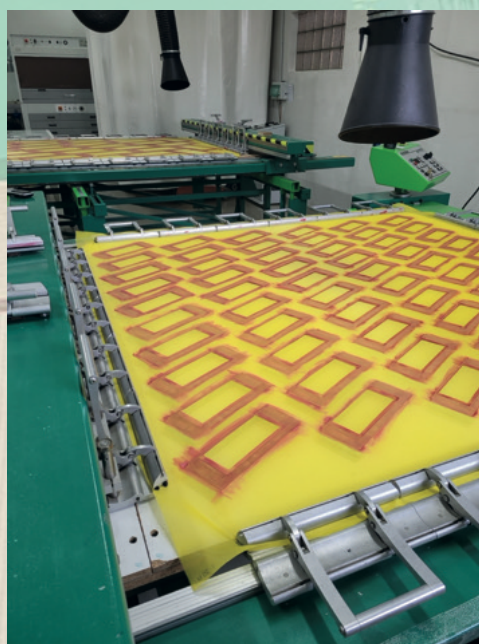

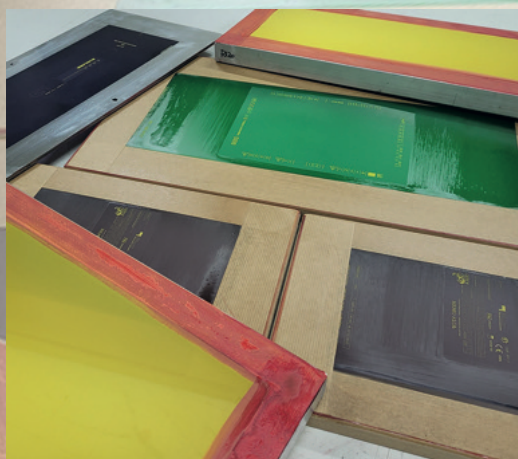

- Cutting-edge computer design studio
- Data processing from all types of media

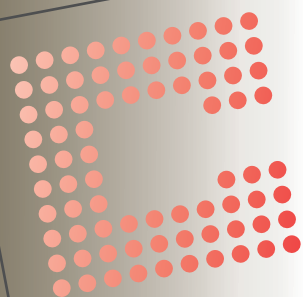

SCREEN PRINTING FRAME

- Wide range of stretched wooden frames with nylon or polyester fabric
- Permanent stock to meet your needs as quickly as possible
- Aluminum and steel frames in specific dimensions upon request
- Engraving positioning possible to ± 0.1 mm

FRAME TENSION

- Automatic tensioning with digital control
- Recovery of your used frames and tensioning of new fabric
- Quality control meeting the requirements of ISO 9001

DIGITAL ENGRAVING

● COPPER ELECTRODE

- Relief or hollow, draft of your choice
- Flat according to 2D plan and shaped according to file

● BRASS, STEEL MARKING PUNCH

- Relief or hollow, draft of your choice
- Flat according to 2D plan and shaped according to file

● SILICONE MARKING PUNCH

- Flat, shaped, curved on several levels
- Single or dual material of different hardness
- Silicone plate
- Traditional or magnetic base

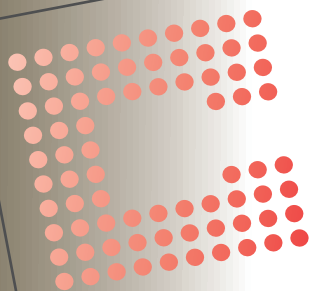

● BRASS OR STEEL MATRIX

- Flat according to 2D plan, curved according to requested file

● ENGRAVING OF STEEL OR TREATED STEEL MOLD IMPRINT 180 KG

- Precision high-speed machining

ACCESSORIES

● INKS FOR PAD PRINTING AND SCREEN PRINTING

-Small quantity and volume possible

● HOT STAMPING FILM

-Custom cut
-Available from stock

● ADHESIVE CLEANING ROLLS
